

Leeroy Jay Modisette

September 21, 2018 - April 1, 2024

Leeroy Jay was light of everyone who can across him. He saved the soul of his momma, Ashlee in Sept 21st of 2018. When Ashlee and her best friend walked into petsmart having no plans to take home who would become the life long best friend Ashlee needed. Ashlee was living in the dorms at WT and there was no way she could have brought a dog back. However, the moment she laid eyes on Leeroy there was spark that she knew she had to break a few rules because that feeling was a strong emotion that Leeroy was meant for her. After some phone calls and a few signed papers Leeroy was going to his forever home.

Leeroy then became a registered ESA (emotional support animal) where he able to stay at the dorms. Where he loved being on campus and he had made tons of friends (College kids).

Once Ashlee graduated from WT she started working at a foster emergency shelter for kids. Leeroy got to come to work with her everyday. He touched the lives of hundreds of children who were scared due to their situations. He let the kids love all over him when they need the support the most.

Later Leeroy would continue bring light to anyone who got to meet him.

Leeroy would then walk Ashlee down the aisle on her special day. He lived in 4 different apartments until he finally got his own house with 5 acres where he spent his last year and half running around becoming the best farm help anyone could ever ask for. Now he is running in the fields of heaven with the

best.. our Lord Jesus. ☐
