

Sushi Strand "My Little Prince"

April 24, 2024

Sushi Strand (2015-2024)

Sushi was a loving little bewier Yorkshire terrier. Sushi was born in Magnolia, Texas, in less than perfect circumstances. Sushi was born to a breeder who abused her animals. One of my daughters found him for sale on a website that made the breeder's residence look absolutely magnificent. However, upon picking him up, it was found that Sushi's life had started in a shed on a run down property. When we got Sushi he was 6 months old, very thin and very scared. He had several health problems related to the quality of his breeding and life up to that point. It took him awhile to trust his new family. Sushi was most nervous around me. We took him to puppy training classes and the dog trainer believed that his fear was caused by previous abuse. Never would Sushi experience abuse or heart ache again I determined. With time Sushi became an outgoing, very happy little puppy that learned to trust his family and me especially. Sushi became known for his constant kisses and love of bow ties. You never saw him without his bow tie or without receiving a kiss from him. It is with very heavy hearts that we announce that on April 24, 2024, Sushi Strand crossed the rainbow bridge due to medical complications from a preexisting condition. He leaves behind his mommy and daddy, Robert and Janyakorn Strand. You will be so greatly missed Little Prince.
