

Vader Jondreau

October 1, 2025 - October 10, 2025

He was born Oct 1st 2018 and crossed the rainbow bridge on Oct 10th 2025

Vader was the keeper of our hearts. Though we rescued him at 10 months old, the truth is ..he rescued us.

With a heart the size of Texas and a love far too big for this world, Vader brought light, laughter, and comfort to every moment of our lives. Though he was deaf, you'd never have known it ...Vader could do anything any other dog could do, just in his own special "Vader style."

He was wild, hilarious, and full of life .. always ready for a game of chase, zoomies out of nowhere, and those wicked little head-fakes that kept everyone guessing which way he'd go next.

Vader loved snuggling with his momma, eating popcorn, and watching Dr. Phil or murder mysteries. When Mom wasn't around, he could be found beside his dad, proudly cheering on the Michigan Wolverines (especially when they beat Ohio State).

He adored his fur brothers and sisters .. and even though he was the biggest of them all at 60 pounds, Vader truly believed he was just another one of the cats. He loved hanging out with his two legged brother Tyler and when his

best bud chace came over we didn't exist! His favorite things in life were naps, car rides with the windows down, and splashing in the river at Red River ..his happy place. His best friend was his stuffed Cactus that he drug around everywhere!

Vader believed everyone should love him .. and most everyone did. He had a way of wrapping hearts around his paw, and he made every day brighter simply by being himself.

This world won't ever be the same without him. But his love, and his beautiful spirit will live on forever in the hearts he touched.

We will love you forever our sweet boy!

Tribute Wall

Bo
Prell

“ *Even though I never meet him I loved hearing stories about him and videos and pictures of him being crazy always made me smile* ”
